

DON'T SHRED IN THE RED!

BE WAKE COOL!

Safe Boating Areas

-  Safe ECO-Boating Zone
-  Shallow Water Area

Conservancy District

Wake Boating Guidelines

- Refrain from filling ballast to maximum capacity and do not use additional ballast items (i.e. “fat sacs”).
- Limit wake surfing and wakeboarding to the middle sections of the widest parts of the lake.
- Operate your boat in normal unballasted cruising conditions or no-wake conditions within the narrow sections of the lake.
- Stay at least 100 yards (a football field length) away from any shoreline, dock, fixed objects or small craft.
- Do not wake surf or wakeboard under low light conditions (dusk, dawn, or night) when wakes are less visible to others.
- Do not use on-board ballast when cruising or waterskiing, and make sure to empty ballast while cruising or waterskiing.
